

# 12th WORLD FZO WORLD CONGRESS

## Event Overview

Panama City, Panama

12 - 14 May 2026

Join **global leaders, policymakers, investors, and free zone professionals** for three days of discussions, panels, workshops, and networking focused on the evolving role of free zones in a rapidly changing global economy. The Congress will explore strategies for investment, innovation, sustainability, and regional integration.

### Congress Vision

The World Congress 2026 will position Panama as a **global platform for transformation** — the Gateway to the Americas. Delegates will explore how visionary leadership, institutional collaboration, and private enterprise can unlock actionable solutions for free zones to drive sustainable growth, act as economic stabilizers, and serve as laboratories of innovation.

### Emerging Opportunities for Free Zones

- **Knowledge and Innovation Economies:** Incubators for R&D, startups, and talent.
- **Digital & AI-Driven Manufacturing:** Smart operations supported by digital infrastructure.
- **Green Industrial Transition:** Circular economy practices, renewable energy, and carbon-neutral operations.
- **Regional Value Hubs:** Anchors for resilient production and regional logistics integration.

**Growth Vectors:** Innovation Catalysts, Public-Private Collaboration, Sustainability Leadership, and Talent & Skills Development.

## High Impact Panels

### **Panel 1: The New Global Operating Model – Leadership in Times of Transformation**

In a global landscape shaped by economic uncertainty, technological disruption, and shifting societal expectations, leadership is being redefined. This panel explores how public and private sector leaders can navigate complexity to drive sustainable, inclusive, and resilient growth.

### **Panel 2: Global Gateways – Redefining the Future of Trade and Connectivity**

As global supply chains evolve amid AI advances and geopolitical shifts, Zones are becoming critical enablers of resilience and connectivity. This panel examines how advanced infrastructure, digital trade platforms, and smart logistics are reshaping global commerce.

### **Panel 3: Sustainability as a Competitive Edge – The Green Industrial Transition**

As the global economy moves toward a low-carbon future, sustainability is becoming a defining source of competitive advantage. This panel explores how Zones can lead green transformation through circular economy models, green investment, and climate-smart industrial development.

### **Panel 4: From Supply Chains to Value Networks – Resilience and Regional Integration**

In an era of geopolitical realignment and supply chain fragmentation, resilience and regional integration are essential. This panel examines how Zones can evolve into strategic value networks that strengthen regional ecosystems and mitigate global disruptions.
